## PROJECT EXPERIENCE

**Parent Portal** — Kids Activities Web Application - Liftoff Capstone project
- An app where users can find kid friendly businesses and activities.
- Working with SpringBoot and Angular and discovering new technologies with JHipster and MongoDB.
- Utilizing skills and knowledge learned in recent LC101 course to build this application

**Creative Reaction Labs** — CoderGirl Class project
- Redesigned the website for Creative Reaction Labs to better suit their needs. Used research to find demographics to market to and streamlined the busy website.
- Used wireframing, journey mapping, user stories, agile development to achieve goal.
- Creative Reaction Labs founder adopted my suggestion to include a welcome video greeting visitors of the organization on the homepage.
